Business

- **KDPCP Overview Guide: T Renn**

- The new KDPCP Overview Guide will soon to be sent out via email
- It is a new resource that includes a variety of resources and tools in one place -some that are new and some that should be familiar to you.
- Examples include: the FY 17 program guidance that was used to develop plans for this year, pamphlet library information, resources, terms and abbreviations, and more. Feedback on the new tool is requested. When you have had a chance to review please send your feedback to Theresa Renn at Theresa.renn@ky.gov
- It is our hope that this tool and others will ultimately be placed on a website for easy access.
 - Theresa also noted that the call recordings will also be placed there – which will solve the problem of not being able to e-mail them to those that have requested them.

LHD Scorecard: R. Jones

- Overview
 - As mentioned on the last call, this tool will provide feedback to each LHD on KDPCP program expectations, efforts and progress for how each site is meeting those expectations.
 - Dr. White has charged KDPCP and field staff for greater accountability of 809 activities and it is envisioned that this tool can help answer this charge
 - Three components of the score card will be
 - Targeted outcomes (i.e., access to and participation in DPP and DSME increases in your service region)
 - Program expectations(e.g., participation in monthly 809 calls, timely completion of workplan and reporting results, completion of the survey monkey, etc.)
 - Beyond expectations (e.g., addition of local funds to the 809 allocation, implementation of activities beyond your funding expectation, etc.)
- Pilot

- We plan to test this tool with a few LHDs. Still in need of a single county health department to be part of this pilot project

CMS proposed changes re: DSME and DPP: K. DeCoste

- CMS Comments are being accepted on the new provision for Medicare Diabetes Prevention Program (MDPP) and for Improving Payment Accuracy for Diabetes Self-Management Training (DSMT).
- **DATE DUE: September 6, 2016 no later than 5 pm, EST**
- Please refer to the attachments included in this email and previously sent in the KDPCP notes.

AADE follow-up: T. Renn

- Presentation (Janice & Theresa)
 - “Strengthening Diabetes Prevention and Self-Management Education Programs”
 - A panel presentation where your hard work was highlighted!
- Poster (Mechelle Coble)
 - “Beating Boredom and Burnout with Education”
 - Mechelle was asked to share this information via other venues. She noted that she is planning to share via KDN and KPHA
- Award presented to Kim DeCoste
 - Distinguished Service Award
 - Congratulations to Kim!!
- “AADE Tidbits”
 - Several LHDs were able to attend the National AADE conference this year and we would like to share some of the great learning and networking from this year’s meeting on future calls, the newsletter and other venues.
 - For those that attended AADE, please send any “Tidbits” (i.e., great presentation, something new you learned, a great contact you made, a new resource, etc.) to Janice at janice.haile@ky.gov
- 2017 meeting is in Indianapolis!
 - Theresa asked everyone to mark their calendars for the next AADE conference which will be held in Indianapolis on August 4-7, 2017
 - She asked that all should take advantage of this meeting while it is in such close proximity.
 - A LHD can use 809 funds to cover the cost of this conference.
 - Registration fees include a government rate of about \$250 – a real bargain.
 - Registration will occur in this fiscal year (spring)
 - Travel will occur in the next fiscal year.

Resources/Materials: T. Renn

- Pamphlet library inventory is in the new Guide
 - Flu brochure is completed and awaiting approval for printing. It should be available soon. If needed sooner, contact us.
- Mark your calendars for 2 upcoming conferences:
 - State Diabetes Symposium – November 4, Louisville [<http://tinyurl.com/KYDiabetes16>]
 - TRADE Workshop – September 15, Evansville, IN

- Janice noted that an e-mail will be coming very soon with registration information for both conferences.
- Contact Janice Haile for questions Janice.haile@ky.gov

Updates

- DSME/Healthy Living with Diabetes: K. DeCoste
 - Next training is Oct 4, 2016 in Frankfort KY.
 - If your LHD is considering starting the accreditation process, please contact Kim DeCoste at kim.DeCoste@ky.gov
- Diabetes Prevention Program: J. Haile
 - As of this call there are 49 CDC Recognized DPP organizations covering 76 counties
 - Congratulations to the new sites:
 - Two new LHDs – Clay and Rockcastle Counties
 - Juniper Health (FQHC)

Next Call: September 28, 2016, at 10:00 Eastern
